To Our Valued Customer:

Re: Price Announcement

Effective November 1, 2021, our stainless steel flat rolled suppliers have announced that they will be increasing their base pricing on all stainless steel raw material products.

Because of these increases, Felker Brothers will be increasing our base price numbers on all stainless steel products which will equate to an approximate 3-5% increase in pricing depending upon the finished product.

Surcharges and freight recovery rates remain in effect and will continue to be part of the total price of our products.

Thank you for your continued support of Felker Brothers. If you have any questions regarding this price increase announcement or any other issues, please feel free to contact either myself or your sales representative.

Sincerely,

FELKER BROTHERS CORPORATION
